

SCHEMA

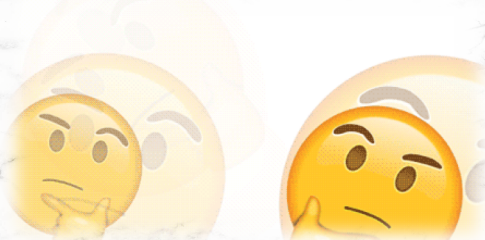

SCHEMA

Schema:

- Everything you know, stored and organized in your brain
- Can grow and change at any time as new information becomes available to you

Why are we learning about schema?

TO BETTER **UNDERSTAND**
WHAT WE READ!

what we already know
+ what we read
= better understanding

How?

Shark Schema

Shark Schema

Text-to-Text:

Reading + something else you have read

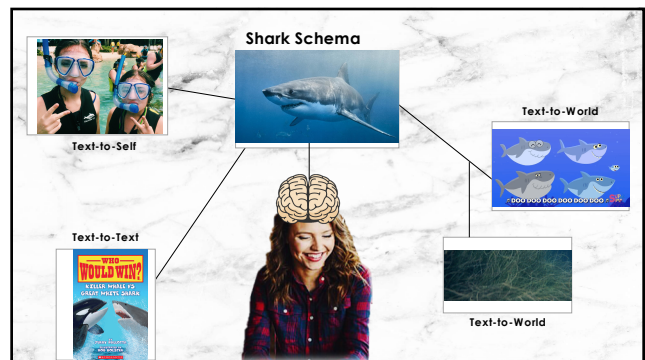

Text-to-World:

Reading + something going on in the world

Text-to-Self:

Reading + something from/about your own life

Questions?

Fist-to-Three

What kind of connection do you think will be the easiest to make?

Turn-and-Talk

Schema Connection Words

- I'm noticing...
- This reminds me of...
- This is similar to...
- This makes me think of...
- I can relate this to...
- I have a connection to...
- I have schema for...

Why is schema important?

Without schema...

Time to practice!

- 3-minutes to write as many **connections to "sharks"** as you can, they can be any of the three kinds of connections (use anchor chart for help)
- Write your connections under the **"What I already know"** box of your organizer.
- Before the timer goes off, write your **favorite/most unique connection** on the slip of construction paper that I give you with your name on it
- After, we will share some of our connections and watch our schema grow!

Schema Connection Words

- I'm noticing...
- This reminds me of...
- This is similar to...
- I have schema for...
- This makes me think of...
- I can relate this to...
- I have a connection to...

Text-to-Text:
Reading + something else you have read

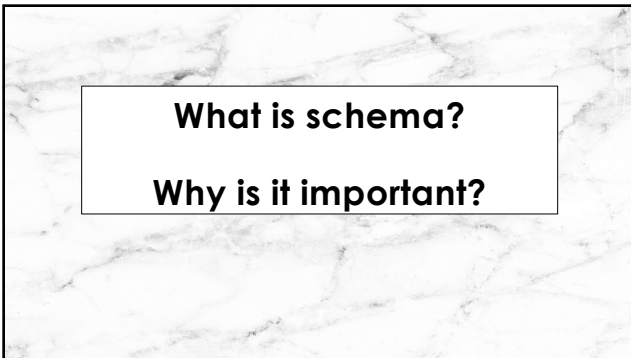

Text-to-World:
Reading + something going on in the world

Reading + known facts

Text-to-Self:
Reading + something from your own life

What kind of connection is it?
